Urchin Plant Pot, Petit - Beehive

Product Description

The Urchin plant pot is a bold reinvention of tradition. Inspired by the quiet elegance of the sea urchin, Urchin is more than a planter it is a reflection of nature's gentle wisdom. Its oval vessel floats above three bold, sculptural legs, like a creature poised between land and sea. These legs, both grounding and graceful, cradle the water, offering it back to the earth in measured whispers, while the open space beneath allows roots to breathe and stretch freely.

The beehive inspired surface hums with organic beauty a tactile invitation to explore nature's artistry through your fingertips. Formed from delicate casts of shellfish gathered along windswept shores, this texture holds the memory of the tide, the whisper of the ocean, and the intricate language of the earth itself. Each ridge and curve pay tribute to the quiet wonder of nature's design a timeless vessel shaped by land, sea, and imagination.

A meeting of beauty and purpose, Urchin honours the delicate balance between strength and fragility a celebration of life unfolding, quietly and endlessly, in the embrace of earth, water, and air.

The Petit size is perfect for tender herbs and the most delicate sprouts, honouring the beauty found in nature's smallest details.

These plant pots are thoughtfully designed with a small drainage hole at the base and a matching saucer, ensuring optimal water flow and air circulation for plants.

Designer Description

Tommy Hyldahl and Kristian Sofus Hansen intertwine their distinct sensibilities to create designs where storytelling, materiality, and timeless form meet in quiet harmony.

With a background in fashion, Tommy brings an intuitive eye for trends, colors, and textures. His process is one of layering histories, blending details and references from past design periods and reimagining them into something fresh and contemporary. Each collection unfolds as a narrative, evolving from concept to creation, with every element contributing to a greater story.

Kristian, who has lived and studied in Japan, seeks to unite Japanese aesthetics with Danish design, creating a characteristic twist on simplicity itself. His work is defined by the search for subtle, original details that elevate each piece with a unique signature. Drawing inspiration from art and sculpture, his creative process unfolds in new and exciting ways, always striving to craft designs that are both functional and timeless.

Together, they craft design that transcends time, poetic yet practical, expressive yet enduring.

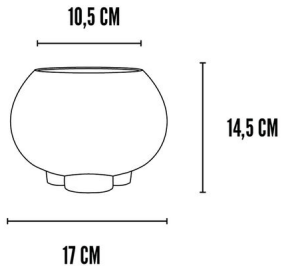

Urchin Plant Pot, Petit - Beehive

Family Description Text

Inspired by the quiet elegance of the sea urchin, Urchin is more than a planter. It is a reflection of nature's gentle wisdom. Its oval vessel floats above three bold, sculptural legs, like a creature poised between land and sea. These legs, both grounding and graceful, cradle the water and return it to the earth in measured whispers, while the open space beneath allows roots to breathe and stretch freely.

A meeting of beauty and purpose, Urchin honours the delicate balance between strength and fragility, a celebration of life unfolding, quietly and endlessly, in the embrace of earth, water, and air.

Urchin speaks in two surfaces. The Beehive surface carries the raw memory of the shore, its ridges echoing shells, tides, and the intricate language of the sea. The Smooth hand-painted surface is contemplative and calm, a quiet canvas that holds space for simplicity and stillness. Together, they express two facets of nature's wisdom: the wild and the serene, the textured and the pure.

Urchin is not simply an object of design. It is a vessel for connection. It invites us to slow down, to notice, to honour the quiet wonder of growth and transformation. Shaped by land, sea, and imagination, it stands as a reminder that beauty is found where elements meet, and life continues to unfold in balance and grace.

Color Description

A living dialogue with nature. Cast from shellfish found along the shoreline, its organic surface carries the soft warmth colour of birch a gentle, creamy beige with natural brightness. Hand-painted with visible brush strokes, this finish may vary in tone and pattern, making every piece truly unique.

Urchin Plant Pot, Petit - Beehive

Maintenance Guide Description

Our hand-painted fiber concrete plant pots are created to bring strength and character to both indoor and outdoor spaces. Resistant to rain, they stand gracefully through the seasons, though they are not frost-proof. In winter, we recommend bringing them indoors or protecting them with a waterproof cover to safeguard their surface from damage.

To care for the finish, dust gently with a soft, dry cloth. When deeper cleaning is needed, use a damp cloth with mild, pH-neutral soap, then dry carefully. Avoid abrasive pads, harsh chemicals, or acidic cleaners, as well as sharp objects, which may mark or disturb the painted surface.

Each pot is paired with a matching saucer, making them as practical as they are refined. With attentive care and thoughtful protection, your plant pots will hold their depth, warmth, and unique hand-painted presence for years to come.

Materials Description

Hand-painted fiber concrete combines strength with artistry, transforming an industrial material into a refined surface for pieces that enrich the home. Reinforced with fibers for durability, it offers resilience against everyday use while remaining lightweight and versatile. Each piece is painted by hand, creating subtle variations in tone and texture that make every surface unique.

The result is a finish that balances raw honesty with crafted detail, bringing depth, character, and individuality to contemporary interiors.
